

## **Prof. Alan Goldberg** *Director of the Board of CAAT*

Dr. Goldberg is the founding director of the Johns Hopkins Center for Alternatives to Animal Testing and the Chairman of CAAT's Advisory Board. Born and raised in New York, he graduated from the Brooklyn College of Pharmacy and then received his PhD in pharmacology from the University of Minnesota in 1966. After two years as an assistant professor of pharmacology at Indiana University, he joined the faculty of Johns Hopkins University. He has been a professor of toxicology in the Johns Hopkins Bloomberg School of Public Health since 1978 and has held a variety of administrative posts within the school, including: Director of the Division of Toxicology (1980-82), Director of the Johns Hopkins Health Associates (1982-84), and Associate Dean (1984-99).

In 1981 Dr. Goldberg established CAAT, and he served as its director until 2009 when Thomas Hartung assumed the directorship. He is a leading authority on the creation,

development, and validation of alternative toxicological methods, and served as president of the In Vitro Specialty Section of the Society of Toxicology. He has served on numerous committees for national and international organizations charged with protecting public health, including the federal Advisory Committee on Alternative Toxicological Methods, the Paris-based Organization for Economic Co-operation and Development (OECD), and the U.S. Food and Drug Administration.

He is the recipient of many awards, including the first Russell and Burch Award in 1991 from the Humane Society of the United States and the Society of Toxicology's Ambassador of Toxicology Award in 1998. He is the 2001 recipient of the Society of Toxicology's Enhancement of Animal Welfare Award. He is a member of the Pew Charitable Trust's National Commission on Industrial Farm Animal Production, The Ethics Board of the Catholic University of South Korea, and a member of the EFSA (EU, Italy) Panel on Toxicology. Dr Goldberg is a consultant to CeeTox, an In Vitro Contract Research Organization.
